Question No.	Question	Yes	No	Not Sure	Comment
1	How did you hear about today's consultation?				
2	Do you support the concept of a new village as a way of providing new homes for Edinburgh?				
3	It is proposed that there is a mix of homes from higher density flats and terraces in the centre of the development to detached houses on the village edge (plus scope for self-build plots) – do you think a mix of density is suitable for the site?				
4	It is proposed that 35% of all homes provided at Hatton Village will be affordable (below market sale or rent levels) – do you support increased affordable housing in this area and are there any specific housing types you consider are required?				
5	A mobility hub is proposed in the village centre to include bus connection (scope to re-route A71 express service with 'in and out' routes through centre and extend bus service from Ratho), car club, cycle hub and link to new stretch of A71 active travel route along site frontage plus associated facilities – do you support this approach and are there any specific measures you would like to see included?				

6	A mix of uses are proposed for the village centre including local retail/commercial/leisure space, a homeworking hub with office facilities and space for local healthcare and Primary School (provision to be agreed with NHS and local authority) - are there any other uses that you would like to see as part of any proposals?				
7	Greenspace proposals include a new Community Park, linear and pocket parks, site for sports club use, area for allotments, circular walking/cycling route around site, new woodland planting on site edges and area for allotments – do you support this approach and are there any specific greenspace proposals you would like to see included?				
	Any other comments (i.e. which parts of the proposal do you like or dislike, is there anything else you would wish to form part of the proposal)?				

Your Information

We will not pass on your details to third parties for marketing purposes. We will only retain your personal information for as long as necessary to fulfil the purposes we collected it for. To determine the appropriate retention period for personal data, we consider the amount, nature and sensitivity of the personal data, the potential risk of harm from unauthorised use or disclosure of your personal data, the purposes for which we process your personal data and whether we can achieve those purposes through other means, and the applicable legal requirements.
